Non-profit meets financial expertise - our software solutions are going to support you to act even more positively!

The challenge

As a nonprofit organization (NPO), how do you measure your success?

Your success as an NPO is measured by how well you fulfill your statutory purposes! You can also generate profits, but these must be donated directly and selflessly to the NPO's purpose.

This is one of the challenges you face as a successful NPO - transparency.

In addition, there are special accounting obligations/accountability requirements that you should comply with in order to avoid having your non-profit status revoked & to avoid the associated loss of tax privileges. Therefore, it is crucial for you not to lose track of your finances.

Our solution

The Finance and Corporate Performance Management Softwares LucaNet and CCH Tagetik of Wolters Kluwer will help you to keep track of your finances and provide transparency. True to the motto: When finances become simple, you have more time for the essential and statutory purposes!

Our service

Through the interdisciplinary combination of IT know-how and professional expertise, we offer you as an NPO manager excellent consulting services. Furthermore, as a strategic partner of LucaNet and Tagetik, we offer you individual software solutions for up-to-date and efficient planning and financial reporting.

We are happy to help you, with your upcoming challenges, contact us!
